Monitor and control your kid's smartphones and tablets using these powerful parental controls! Set up daily screen time, configure the app blocker and lock completely the device at any time and from anywhere.

Be empowered by a quick and simple parental control app with great features like list of selected apps to be hidden or accessible to children, and much more.

Create your family and easily add your child's devices to be able to control it.

By using the Daily Screen Time feature, parents can configure the amount of time children will be allowed to use their smartphones during the day! Parents are also able to add bonus time to the day for children and set a list of always allowed apps!

Lock the device using the Time-Out feature and ensure kids will not be distracted with digital devices when they should be studying, sleeping or having fun with family and friends.

LIMIT SCREEN TIME AND BLOCK APPS FEATURES:

- Set up Daily Screen Time
- Hide Restricted Apps from your children
- Set a list to show Only Selected Apps
- Lock the device in one App, avoiding distractions during homework
- Hide all apps;
- Block Facebook, SnapChat, Instagram, Twitter, or any other social media app;
- Completely block Internet by blocking app browsers;
- Receive alerts about potential risks on children's devices.

Be careful before installation. It will remove all your kids apps on Ipad, and there is no way to recover! Don't like this app!

Great product but could be better: 1. To have Duration limit with break duration setting so that kids won't stare on the screen for too long. 2. My girl feed back that after timeout is over, all her apps folder were messed up and she get very frustrated having to rearrange them again.

I am a child of one of your users. My parents tried to use this app to check my phone and to make sure I don't get certain apps or do certain things yet I still have managed to get though

I can't control any of my son's usage and yet it removed safari and it can't be reinstalled. I'd rate the program a Zero but that isn't an option.
